Chianti Classico Docg 2007

Production: 45,884 – 75cl bottles

A mild winter was followed by very early germination. A fairly hot summer without any excessively high temperatures meant that the grapes ripened evenly a week earlier than usual. This vintage has a lower acid content than 2006 and excellent freshness.

Best between 2009 and 2015.

Should be served at 17°C.

As this wine has not been filtered, there could be a slight deposit at the bottom of the bottle.
