Chianti Classico Docg 2008

Production 42,860 75 cl bottles

During spring and summer the weather conditions were well-balanced and ranges in temperature were good. Abundant rain in mid-September meant that the grapes were well watered and that they ripened very well.

This is a rich Chianti Classico with a particular freshness.

The bunches of grapes on every vine were reduced by 30 to 40% during the green harvest.

This wine should be drunk between 2010 and 2016.

Serve at 17° C.

As this wine is unfiltered there might be a slight deposit.
