La Ricolma Igt 2005 Merlot di Toscana

Production: 4,948 - 750 cc bottles.

The winter was severe with lots of rain and snow, while the spring and summer weather was excellent.

The harvest was much later than is usual for these grapes in Tuscany.

An intense wine, with a persistent aftertaste and excellent balance. Its characteristics are very typical of Chianti.

Whenever necessary, from 20 to 30% of the grapes were removed from the wines when they were well into production.

Drink between 2008 and 2017 and beyond.

Serve at between 17 and 18° C

As this wine is unfiltered, you might find a slight deposit.
